

# EDUCATION SERVICES

IMPROVING LEARNING  
OUTCOMES FOR YOUR  
STUDENTS

# YOUR PARTNER ACCOUNTABLE FOR LEARNING OUTCOMES

**W**hizz Education has more than fifteen years' experience partnering with schools and governments to improve learning outcomes.

To meet your objectives and your teaching and learning environment's specific needs, we adapt our approach to each and every implementation to deliver the best outcomes for your students.

Delivering learning outcomes requires a holistic approach. By working together, your school's maths provision and outcomes can dramatically improve over time.

We provide a range of services that, together, can quickly deliver desirable learning outcomes.

# SOLUTIONS DESIGNED TO SUPPORT YOUR SUCCESS

YOU CAN MEET YOUR OBJECTIVES  
THROUGH A COMBINATION OF THE  
SERVICES AND SOLUTIONS WE PROVIDE:

## UNDERSTANDING YOUR PRIORITIES

At the start of our relationship, we meet with the leadership team to understand your educational goals and aspirations and create a bespoke implementation plan which aligns with them. The implementation plan serves as a reference point throughout your partnership with Whizz Education, enabling us to monitor progress against the agreed targets and hold each other accountable for success. The implementation plan is updated at a termly review meeting based on qualitative and quantitative insights collected throughout the year.

## IMPLEMENTATION PLANNING

The Implementation Plan is aligned with your goals. It ensures that there are clearly defined objectives for your implementation, along with a timeline of activities that enable us to meet them. For school groups, an Implementation Plan is prepared and maintained at both the central level and then adapted for each school.

## TEACHER TRAINING

Delivered by our team of experienced educators, your staff will receive in-depth training sessions focusing on achieving a truly differentiated approach to mathematics.

Your staff will quickly learn how to navigate the virtual tutoring service, its accompanying data reports and our library of instructional resources with ease. More importantly, they will understand how to embed these into their daily routines to reinforce curriculum delivery and assessment, quicken the pace at which learning outcomes are achieved, and reduce workload.

## COURSE CORRECTION

Whizz Education's Course Correction framework has proven to more than double the rate of student progress in mastering rigorous maths content in some of the most challenging environments across the globe.

*“Maths-Whizz collects data in real-time. We combine this with insights from the ground. This provides a unique opportunity to take impactful course corrective actions throughout the life cycle of your implementation.”*

Course Correction cycles run at least termly and give your central maths team the space to discuss your data trends and the context of your implementation with your dedicated Education Success Partner. These insights are all geared towards simple actions that can be taken and are proven to accelerate learning gains.

### ANNUAL REVIEW MEETING

These strategic meetings are an opportunity to review your progress so far. The rich learning analytics generated by the virtual tutor is synthesised with qualitative feedback and reflections from our Education Success Partners. Based on these insights, we will refine your implementation plan to ensure all students and teachers realise the full benefits of individualised tutoring.

### INSIGHT REPORTS

Our data experts work closely with your dedicated Education Success Partner to provide a detailed analysis of your students progress in mathematics.

These Insight reports also support continuous improvement strategies by including actionable insights and recommendations on how to strengthen your implementation.

The impact of your implementation in terms of the learning data available via the virtual tutor is ideal for stakeholders looking to evaluate performance against objectives.

### IMPACT EVALUATION

As your partner accountable for learning outcomes, we embrace your definitions of success and hold ourselves accountable for them.

For many of our partners, success is tied to performance in third-party assessments. In a typical impact evaluation, our data experts undertake rigorous statistical tests to compare your students' progress generated on our personalised, virtual tutor with their performance in your chosen third-party assessment.

We may also measure changes in teacher attitudes, depending on your stated objectives and success criteria for implementation.

The evaluation depends on the timely and secure exchange of student assessment data and, where appropriate, teacher survey data. Impact evaluation is a proactive effort that must be designed and agreed to up front to maximise the rigour of these studies and their robustness.

### THE PERSONALISED, VIRTUAL TUTORING SERVICE

The Maths-Whizz Suite combines an award-winning virtual tutoring service which uses powerful AI to differentiate learning for every student with online maths lessons, making it possible to build confidence, engage every student and accelerate learning by upwards of 18 months in the first year of use depending on the level of student engagement.

### ASSESSMENT & REPORTING

Spot learning gaps, monitor progress and give targeted support with our easy-to-use assessment and reporting system, built to save time spent on planning and marking.

### TEACHERS' RESOURCE

Quickly plan, differentiate, and deliver your perfect maths lesson with a bank of over 1,200 high-quality maths resources, including printable worksheets and tests, animated exercises and rich extension problems.

### CENTRAL REPORTS

Monitor students' progress across a group of schools in real-time using consistent benchmarks. See which schools are progressing well, and identify those in need of more support and attention.

### WHIZZ ASSIST SUPPORT

Your teachers are always able to get the help they need when they need it. Our on-demand support means whether they're in a lesson or planning at home, Whizz Support is always there via live support from within the Tutor, our 24/5 telephone support service, and by emailing [support@whizzeducation.com](mailto:support@whizzeducation.com)

### ONLINE TRAINING MATERIALS

Get access to online training materials that ensure you get the most out of the virtual tutoring service.

# EDUCATION SERVICE LEVELS

We offer levels of service which are dependant on the size and scope of your implementation. These include optional add-ons and have been designed with flexibility in mind. They are intended to provide structure and clarity on your end-to-end partnership with Whizz Education.

SERVICE	ESSENTIALS	ENHANCED	PARTNERSHIP
A dedicated Education Success Partner to guide you through every step of your journey, monitor your learning data on an ongoing basis and help you think through action steps		x	x
