

MULTI-ACADEMY TRUST PILOT QUICK GUIDE

SUPPORTING YOUR SCHOOLS TO DELIVER
ACCELERATED LEARNING IN REMOTE,
HYBRID, AND IN-PERSON INSTRUCTIONAL
SETTINGS

OUR PARTNERSHIP PROPOSAL

DEMONSTRABLE LEARNING OUTCOMES ACROSS YOUR SCHOOLS

Whizz Education is your partner accountable for learning outcomes. Over a ten-week period, we will work together to implement a pilot programme that may show the early signs of accelerated learning in some students. Our solutions are designed to achieve whole school improvement, enabling the leadership team of your MAT to see the beginnings of it in your individual schools and at the MAT level. Throughout the pilot, we will analyse real-time data on student engagement, achievement and learning progress, taking into consideration the local contextual realities of the participating schools within your Trust. Equipped with this quantitative and qualitative information, your leadership team can make informed decisions on future teaching and support strategies across individual schools and the Trust as a whole.

ALIGNING WITH YOUR SUCCESS CRITERIA

To gain the most out of our partnership, we will begin with an exploratory meeting with a member of your Trust's SLT to define your strategic aims and understand what success looks like for you.

With a shared understanding of your vision and goals we will be prepared to collaborate with you to support your schools. While this is a no-cost pilot partnership, your commitment to fully engage with the pilot will be key to maximizing learning gains.

01

TRAINING

To ensure that your Senior Leaders and Maths leads have a solid understanding of how to make the most efficient and effective use of our individual learning solution, we will provide a thorough remote learning experience which introduces how our partnership operates, the virtual tutoring service, our methods of continuous formative assessment and how to analyse the real time data reporting and advise on any remedial action required ensuring we are always accountable for learning outcomes We will monitor agreed KPI s to track the success of the pilot in 3 key areas:

FUNCTIONALITY :

Setting up the learning environment and integrating it within your teaching process

EVIDENCE OF LEARNING PROGRESS :

Achieving efficacy by increasing usage of the individualised and scaffolded virtual learning solution

INSIGHTS TO INFORM OPPORTUNITIES FOR MAXIMISING LEARNING YIELD :

By using the quantitative and qualitative data from the pilot, how can our implementation be scaled up across your entire school using best practices, simultaneously simultaneously driving down the cost per student.

02

SUPPORTING YOU AT EVERY STAGE

At every step of the programme, we are there to support you and your teachers. Each school is allocated to one of our experienced Education Success Partners who will assist with the onboarding of students and work with you to ensure a smooth implementation of the pilot as well as being your central point of contact. Should your teachers require support during a lesson, we are there for them then too with our realtime Whizz Assist support team on hand to make sure that every lesson goes as smoothly as possible.

03

BUILDING STRONGER RELATIONSHIPS BETWEEN YOUR SCHOOLS AND PARENTS

Working in partnership with Whizz Education fosters closer relationships between your schools and parents. Not only does each child have their own account, their parents have a linked account so they too can encourage their child to continue learning at home, and see the progress their child is making via the parent dashboard which can inform your parental engagement plans as part of a continuity plan which extends teaching beyond the classroom.

04

ACTIONABLE DATA

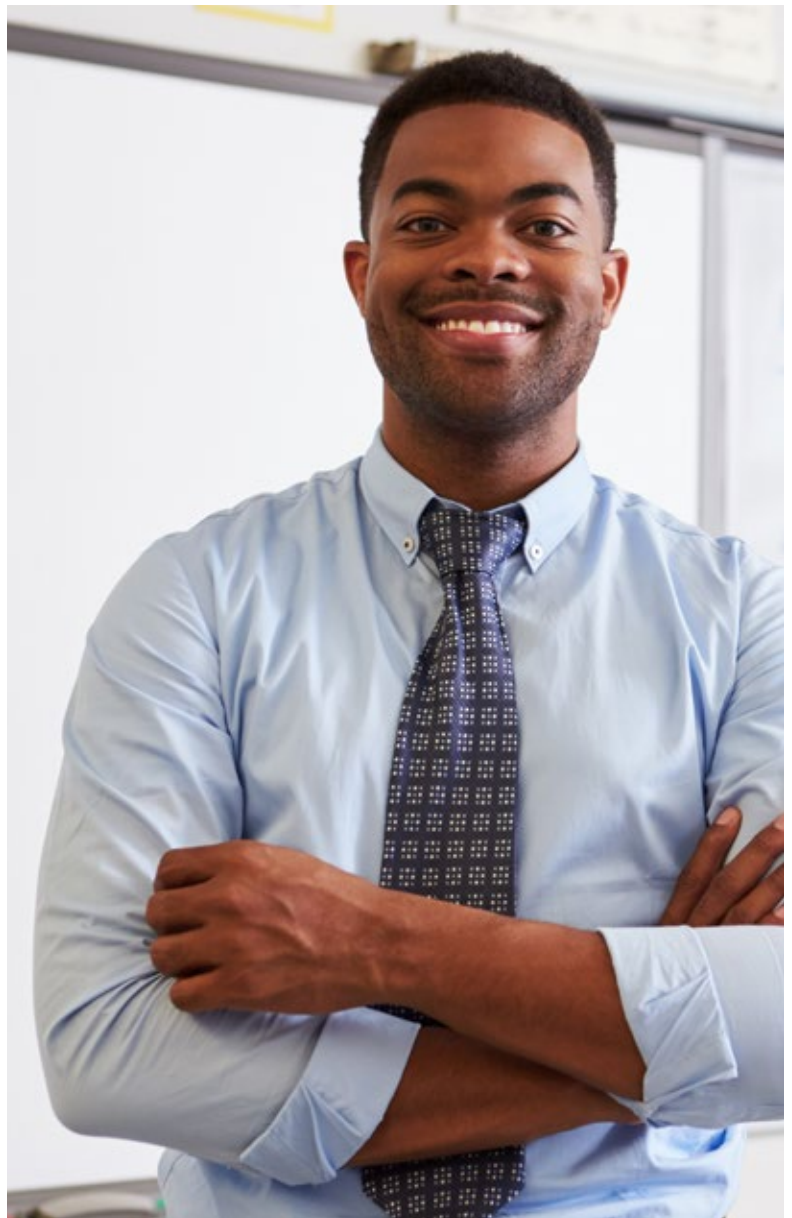

MATs, School SLT and Maths leads will have access to central and school reporting to evaluate the engagement and progress throughout the duration of your pilot. This data provides detailed information from the individual student all the way through to the aggregation of data at a MAT level, giving you the opportunity to see patterns in the results from your schools. By combining the hard data with the story behind the data from your individual schools, together we can identify insights into learning dynamics, gaps and opportunities for development across your MAT. Equipped with this insight, you can.....Furthermore, subject to partnership continuity, this will inform an ongoing implementation design and plan to achieve your learning outcome objectives. Should there be varying levels of engagement, usage, and progress made across your MAT during the pilot, together we can identify what may have occurred in the affected schools to provide the context behind the raw data. Equipped with this information, you can be confident in the decisions you make to achieve your objectives in all of your schools in the future.

05

MEETING TO REVIEW SUCCESS

To help your team gauge the success of our pilot partnership, our data insight and education teams will prepare a full executive summary which includes feedback from participating schools. This report forms the core of the agenda for the review meeting which takes place at the fulfilment of the pilot programme. Having discussed the success of the programme, we can then consider how to continue our partnership.

WEEK 0

Teacher training, Parental engagement sessions and students are uploaded.

WEEK 1

Receive a welcome to the MAT pilot programme email

WEEK 2

A meeting to answer your questions

WEEK 3

A catch-up with your Commercial Partner from Whizz Education

WEEK 4

Receive an email informing you of the latest data on the usage, engagement and progress of the schools, classes, and individual students on your pilot programme

WEEK 5

A meeting with your Commercial partner from Whizz Education

WEEK 6

Progress check-in call

WEEK 7

Arrange a review meeting towards the end of your pilot programme and receive a check-in email from your Education Success Partner

WEEK 8

Survey sent to your leadership team and teachers on the pilot so we can combine that information with our data analysis to deliver an actionable report for you

WEEK 9

Review meeting during which you will see how closely the pilot programme has achieved your KPIs, along with a detailed discussion of the data stories and survey feedback

WEEK 10

A final meeting to discuss the outcomes from the review meeting and decide how best to progress our partnership

YOUR PILOT PROGRAMME TIMELINE

Having agreed to work together to achieve your learning outcomes, the pilot programme progresses along this timeline. Remember, we are with you every step of the way.

LET'S GET STARTED
